WILLIAM MAXWELL, Lt.-Commissioner.

A THANK-OFFERING TO THE LORD (See "The Lord of the Harvest,"

Praise to God, inmortal praise, For the love that crowns our days; Bounteous source of every joy, Let Thy praise our tongues employ, All to Thee our God we owe, Source whence all our blessings flow.

All the plenty Summer pours Autumn's rich o'erflowing stores, Flocks that whiten all the plain, Tellow sheaves of ripened grain; Lord for these our souls shall raise Grateful your and selemn praise.

As Thy prospering hand hath blest, May we give Thee of our best; and by deeds of kindly love For Thy mercies grateful prove. Singing thus, through all our days, Praise to God, immortal praise.

GOLD DUST

Swept up by COLONEL ADEY

Rest not in being one of Christ's friends. Aim at being His bosom

He is a faithful friend indeed who will hacard our friendship to save our souls from sin and destruction.

Surely the friendship of the world is dearly purchased by an act of enmity against God.

True bosom friends will seek to mortify sin and increase grace in each other.

Love to friends is manifested by words, yet more by acts; and most of all by prayer for them.

"What will my triends say or think me, nips many a good inclination of me, hip in the bud.

Jesus is a Friend that sticketh closer than a brother.

No companion deserves your con-tidence who makes light of your soul Consider him an enemy who contrives to damage your soul.

He who receives a good curn should never forget it, but he who does one should never remember it.

THE LORD OF THE HARVEST

"The earth is the Lord's and the fulness thereof: the world, and they that dwell therein."—Psalm 24:1.

ARVEST FESTIVALS are not a new institution. We have record in the Bible that the original proclamation was made by God Himself, just after the emancipation of a nation of slaves from bondage, when they were enjoying their liberty in the Wilderness.

We read in Exodes 22:16:19 "Thou shalt keep the least of Harvest, the first-fruits of thy labors which thou inast sown in the field, and the feast of the Ingathering, which is in the end of the year. When thou hast gathered in thy labors out of the field, the first of the first-fruits of thy land thou shalt bring into the House of the Lord thy God."

It is a good thing to give thanks unto the Lord, especially in some practical way as in bringing our gifts to the Altar. The great law of giving unto God never fails; we always receive good measure as He has promised.

ways receive good measure as he has promised. Harvest time reminds us of the goodness and kindness of God, It also verifies the promise of God given to Noah after the flood. "While the earth remaineth, seedtime and harvest, and cold and heat and Summer and Winter, and day and night shall not cease." (Genesis 5:22.)

The poet Browning gave expression in words of a thought that brings strength and comfort to all those who put their trust in the Lord: "God's in His Heaven, ail's right with the world."

The earth is the Lord's by creative

right with the world."

The earth is the Lord's by creative right. It seems so evident everywhere we look that all things have been created by a wise and infinite Being. Everywhere there are evidences of His control, and the deeper science and research explore, the more evidence we have of great laws that govern all things. Thus proving there must be a Lawgiver—a Divine All-powerful Being.

"The fool hath said in his heart. There is no God." (Psalm 14:1) The words are just as true to-day as when the Psalmist wrote them, many centuries ago. To the understanding heart on every hand there is a burndant evidence not only that there is a Supreme Being, but also there is

proof of His loving care. We know "He only is the Maker
Of all things near and far;
He paints the wayside flower,
He lights the evening star;
The winds and waves obey Him.
By Him the birds are fed;
Much more to us, His children,
He gives our daily bread."
The earth is God's—every tree and

upon a thousand hills, and also the
people who dwell therein. What we
possess is entrusted only to our care

So let all men praise the Got of the harvest. Our small gifts the not enrich Him, they are to tokens of a grateful heart, and the acknowledgment of our responsibility towards Him. So, with the Pailnit, we say. "Oh, come, let us workply and bow down; let us lend before the Lord our Maker. For He is our God; and we are the people of his pasture, and the sheep of His hard (Psalm 95:6, 7.)

So that when they gathered the first-fruits of the harvest they brought their offering to the Lord, and later, when all was gathered in, they came to acknowledge God's bounteous care. (Exodus 23:16.)

In these modern days of prosperity we must not forget how dependent upon God we continually are. A right understanding of this helps to steady life. Our thoughts of God are subject to the limitations of our human nature. He is greater than any of our imaginations. Yet the wonder of it all is He tells us plainly in His Word, "Like as a father pitteth his children, so the Lord pitteth them that fear Him." (Psalm 103:12.) We know how a true father finds real joy in providing for his children. In like manner our Heavenly Father sends the sunshine and the rain. He gives also to man the wisdom to cuttivate the land.

A TOWN WITHOUT MONEY

The Triumph of Sanctified Common-Sense on a Jungle-Covered Sumatran Island

By ENSIGN A. J. GILLIARD

HERE seems to be some uncertainty regarding the history of the jungle island at the junction of the Belawam and Deli rivers, within a mile or so of the sea, on the east coast of Sumatra. Its name has been said to mean "The Island of Death," and a more sinister and appropriate designation could scarcely have

could scarcely have been conceived in view of the island's present population. Less imaginative and possibly bet-

ter informed persons, however, trans-late "Poeloe of Tjanang" as "A place like a gong," and gong-shaped the island certainly is.

Primeval Jungle

According to some, the island, previously to its present usage, has never had a more important part to play in the life of man than that of a fishing site, and there are evidences that a "ladang," a construction upon which the native people live during the fload season, has at one time existed on the river side of the island.

existed on the river side of the island. Another story states that a brick-making industry was commenced on the island, but that fever smote the workmen and the survivors fled from the place. The discovery of a rubbed brick lib. with remnants of bricks and human bones in the debris suggests that this story is possibly true. Yet another opinion, describes the island as a kind of jungle refuge for diseased natives.

Such a mosquito-ridden stretch of

island as a kind of jungle refuge for diseased natives.

Such a mosquito-ridden stretch of swamp as Pocloe is Tjanang must have been but a few years ago could scarcely be expected to have, any listory but that common story of primeval jungle, where fierce life has struggled for untied acons and asheved little more than the cunning of the monkey and wild pig, the power of loathsome alligators, the color of darting birds, the poison of fiendishly persistent winged insects, and the speed of hooded arrindillose. At high tide Poeloe is Tjanang is an expanse of jungle, intersected by tortious narrow creeks whose brown waters would been a small boat mro many dim. leafy bowers, and at low tide, when the creeks are slimy, murmang channels alive with immumerable forms of insect and reptile life, a lorge part of the silent tangle of vivid green brushwood and creeper is safe from any human invasion.

A Romantic History

During the past few years, however, the hame of this insignificant patch of tropically situated mud has been heard in almost every land, for open Pocloe si Tjennang there is a Leper Colony whose history is as mantic as any of the missionary ventures put forward in the Dutch East Indies.

A narrow built-up road and tramway runs between the swamps to the heart of the island. The visitor sitting on the tram behind a horse of so and remembers exactly where the primitive, clanging and where the primitive, clanging contraption behind him must be hauled to port or cazet to starboard, finds himself runbling along between two wails of low, langly vegetation. He hears the

quick "flop-flop" of startled creek-dwcllers as they dive to safety, sees a vision of winged gold or crimson as a bird flashes from tree to tree ond, if he has on that long ride surrendered himself to the spell of his exotic environment, is suddenly startled to find the "tram" lurching round a corner into sight of a trim hedge, white houses, brilliant green-sward, a pumping station, and a steepled church. It is like walking across Clapham Common and finding oneself gazing at the Taj Mahal.

Some parts of Peeloe si Tjanang, it is said, have yet to be explored, but here is an entire community of people whose history has many dramatic and heroic elements, besides being in every way deeply tragic. That trim hedge is for many an impassable wait. This is a colony of lepers, and here is a giimpse of the Colomy's history, heard one New Year's eve from the lips of Major Scheffer, until recently the Officer in charge

provide a place of refuge for the contificid lepers. They were sent by the police to Foeloe of Tjanang, and kept there under penalty of punishment is they broke bounds.

A colony of lepers constituted in this fashion could hardly be successful, even although the majorny of the Coloniets are patient and ingenious Chinese in a land where the necessities of life are few.

The Salvation Army was at length asked if they could repeat at Foeloe it Tjanang the success hade with a Leper Colony in Java. Centam Otticers had aheady been deeply concerned over the plight of the lepton-contract laborers in Junuatra, and arrangements were made for the istand to come under Army administration. Then began a long and painting battle with misapprehansion. Of discipline there had been none. The police were hated as the cause of all the distress, for the lepers could not understand why they should be ma-

Some years ago the Chinese Mayor in these parts (an official responsible for the welfare of the Chinese residents) endeavored to make some provision for his countrymen who were tound to be stricken with leprosy. The rubber and other vast estate that lie thickly around the east end of Sumatra are almost wholly operated by Chinese laborers imported on contract for terms of years, with some Malays and Indian laborers from British India and Ceylon.

These estates make medical provision for their employees. At the time under review, the discovery of leprosy in a patient raised a difficult problem, for he could neither be retained on the estate nor shipped back to China, nor yet turned adrift without means of sustenance.

The responsible authorities secured possession of Poeloe si Tjanang, and a law was passed stating that all lepers must place themselves in the hands of the police at Medan. The original scheme did little more than

prisoned on account of sickness for which they were not responsible. The Colony was, in fact, a prison without any internal discipline, and when Army Officers appeared, to live on the Colony and make ceitagn demands upon the people, they werey naturally regarded as the public agents and forthwith thoroughly hand.

Under pressure from the local authorities, The Army at last consented to the provision of armed police to maintain order. Soon afterwards, Major and Mrs. Scheffer arrived to find the Officers thin and distraught and their nerves almost wrecked. By day they struggled to control the sullen patients, and by night they were haunted with dreams of the suicides which now and again added to the heritary of that leproasisiand. In emphasizing one point the Colonel observed: "You make nineteen things right with God, but fall in the wentieth, and it is the twentieth that counts!"

Conviction was plainly evident, and as soon as the invitation was given, seekers began to make their way to be penitern-form. A real old fashion-id Army Prayer meeting, lasting an hour and a half, resulted in fifteen seekers. Among the number was a man in his shirt sleeves brought in from the sidewalk by a Bandsman, it was a wonderful meeting. Officers and Locals, Scouts and Canris, all united in seeking the blessing of God, and we were not disappointed. Hallelujab!—G. Dayles, Commandant,

PHIL MASTERS' THREE R'S

Radio—Retrospection—Regeneration

R ADIO? Oh, yes, Phil Masters, late of the Windy City, now one of the supersalesmen of the O. K. Radio Corporation, working in the Philadelphin territory, knew everything about it! Had he not for the past three years thought radio talked radio, nay, even dreamed radio?

talked radio, nay, even dreamed radio?
Radio was the reason why he sat moodly consuming a Chinese table d'hote dinner in the "Pekin," one of the six or seven gaudy oriental restaurants, whose freakish electric signs help to create the atmosphere of Philadelphia's one block of Chinatown. If Masters hadn't had two prospects lined up for Sunday, whom he felt dead certain of landing, he never would have remained in hot stuffy Philadelphia, but would have been down at Atlantic City with two of his few Philadelphia friends, but Masters was one of the go-getters who put business hefore pleasure.

Voices

Leisurely disposing of the almond, chicken chow-mein with his thoughts far away in Chicago, wondering just what his old cronies were doing, wondering whether his dear mother and sister were sitting on the porch of their little Summer cottage at Waukegan, his attention was suddenly arrested by:

"There's nothing left for me,
Of days that used to be;
I live in memory.

"There's nothing left for me, Of days that used to be; I live in memory, Among my souvenirs."

Radio, Couldn't he ever get away from it? and, what a radio! Which was the worst the static or the nasal tenor, Phil just couldn't make up his mind; but for once he admitted the merits of static as an eliminator. Phil once more turned back to his chow-mein and Chicago retrospection. What a fool he had been to take this territory where he had so few friends to really pal with! How vastly different it was back with the old crowd he had grown up with, the supper dances at Sheman's College Inn, or Chez Pierre, the Saturday night pinchle club, the canoe trips up at Lake Geneva, that was the life! Why had ne ever left it?

party.

After the ceremony, a banquet was served in the Young People's Hall. During the banquet, Lieutenant Newman, the groom's former assistant spoke on behalf of the Preston Corps. It is interesting to note that four of the relatives present were Army Officers.

Again the radio sobbed forth, this

Again the radio sobbed forth, this time a somewhat hoarse baritone, "Even though you're only make believing, Laugh. clown, laugh!"

What an unpardonable travesty on Pagliacci! Sounds more as if he is choking on a fish bone than laughter. Again the chow-mein claimed his undivided attention. He poured himself a cup of tea and thought, perhaps, at this time his dainty little mother and sister might be sipping iced tea on their cool little cottage porch. Masters pulled himself up with a start as he heard a clear. sweet voice lining out the following,

was her Gethsemane he would never know, but ever since he hated to meet the sweet purity in her eyest Could he ever forget her coming op to his room, hoping, fearing, praying that it was only tobacco sincke that she smelled? Could he ever forget her prayers and entreates to give up his worldly companions? Could he ever forget their solemn covenant by his bedside when they both wept and he sealed the promise with a kiss? But soon, all too sodh he forgot that sacred vow.

Years had passed—years of dis appointment to his dear mother as she saw him get away from the old standards—and yet he still remained his clean-cut respectable self. For "blood always tells," and somebow since his first Waterloo he neverwent to excess in anything. But Mammon and Pleasure were his gods, and he had long since relegated the God of his youth to something essential for childhood and extreme

"We have a message, A message from Jesus, And time is now hastening,

A message from Jesus,
And time is now hastening,
Its moments are few—
He's seeking poor sinners."
What a nice voice, thought Masters,
as he stepped out on the thiny balcony
to look down at the Philadelphia II
Corps Open-air! Oh, it's The Salvation Army! Masters' ears caught the
old familiar tune,
"For you He is calling He's calling for you."
Why it's "For you I am Fraying!"
Why I waset to sing that back in the
little Methodist Church choir some
thirteen years ago! Masters' eyes
grew moist. How he had loved church
then, the old hymns, the Epworth
League of which he was the secretary! Oh, how far he was to-night
from those ideals that his Christian
mother has endeavored to instil
into him!

Mother's Prayer

Mother's Prayer

The singing had stopped, and a man was invoking God's blessing on all within hearing distance of their voices. Masters bowed his head. That included him.
"Could God bless him, who never even took time to go to church?"
"If there are lonely hearts to-night, O Father, may they realize that Thou art an unfailing Friend, who never leaves us lonely," continued the exhorter.

or amer, may they realize that Thou art an unfailing Friend, who never leaves us lonely," continued the exhorter.

Masters' lips quivered and he quickly stepped back into the restaurant to control his emotions.

Feverishly drinking his tea Masters eaught a clear ringing testimony of the saving and keeping power of Jesus Christ, and then a soft, sweet and wondrously heart-stirring voice rang out on the breeze,

"Where is my wandering boy tonight, The boy of my tenderest care?"

Masters closed his eyes, and he fancied he could hear his dear sister singing that same song in their little living room on Sunday afternoons, when they both had come home from Sunday-School. Oh, those golden days when his dear mother, running her slim fingers through his mop of curly hair, and kissing his brow would say, "My boy will never wander, will he?" How confidently then he replied, "No. mother dear, never!" But he had, and so far.

Could he ever forget the agony in those dear eyes, when, at seventeen, he had come home from his first all-night party as a young freshman in Northwestern, pale and much the

"Oh, where is my boy to-night?
Oh, where is my boy to-night?

Masters wiped away the tears that

W E ARE here afforded a clear idea of work being carried on at a Bush Corps among the mountains, where an energetic soulsaving work is in progress in a scattered community. The Officers, who were out visiting their last place of call, pressed on for a few miles until they came to the manant of an aboriginal settlement, which eighteen months ago was disbanded, the natives being transferred to a big aboriginal encampment at Lake Tyers. Of these folk living on the river bank the Officers heard, and forthwith went to visit them. A number of these people have been attracted to the Senior meetings at The Army Hall, and some are present each Sunday night. Several of the women have been converted and two enrolled as Soldiers. Some weeks ago a special meeting took place in the open country, when the Divisional

As son as the service terminated, he went after the man, and succeeded in escerting hint to asceound Open-air gathering healt shortly after in another locality. There the Soldier did his bosal to persuade the man to get converted on the spot, but without avail.

But the Salvatinist did not give in. He enlisted the aid of other comrades, and the man was invited to the Hall, with the result that the indoor meeting began that night with a broken-hearted penitent at the mercy-seat. "Another evidence of the wide-spread character of the work is the case of a man who fifteen years ago had spent some nights in a Shelter in Germany, and there had heard the glad news of Salvation. In the intervening years he had tried to forget the Call of God, until the news reached him that The Army had opened in Vienna. Now an official in one of the smaller towns of Austria, he came to the capital and looked up the Salvationists. God's Spirit took hold of him and he surcedered.

How glad the young missionary Officer felt that she had not stayed at home. She was very tired and her hands had become blistered by the tropical sun while holding the horse's reins, but a holy joy pulsated through her entire being. She was doing the will of God. To-day's challenge of the East had been accepted by her.

She came across a party of women washing clothes at the rushing river. They slashed the set clothes against the smooth river boulders instead of rubbing them, and used a green gooth

chtained from a certain leaf in lieu of the expensive and rarely-to-be-obtained soap of America. With a smiling salutation she would doubtless have won their friendship and confidence had not the swishing of their clothes at an inopportune moment disturbed the equilibrium of Mac. He suddenly reared; then kicking up his hind legs he nearly unseated Evangel, and set off at a great pace up the whiding path of the mountain-side. The Lieutenant clung like a leech, but she could tell he was "getting his head." There was a tense struggle for maskery between a frail pair of hands and the animal strength of the horse. But the horse won.

He turned suddenly from the uphill path and raced along a clearing above and parallel to the river. Hoping for the best, Evangel Sellar clung on desperately.

The plateau-like part of the elearing ended suddenly and merged sharply into the rocky slope which led to the foaming torrents below. A great fear gripped the girl as she looked ahead and saw what should she do? To roll off the madly charging horse would mean certain death on the rocks of the hillside.

horse would mean certain death on the rocks of the hillside.

ing horse would mean certain death on the rocks of the hillside.

She breathed a prayer for help, committed herself to the Lord and was faintly encouraged by the "wouf! wouf!" of the faithful Scout barking in the valley.

To the end of the path they sped, and nearing it Evangel could but set her teeth and shut hereyer and hope.

She remembered but a great increase of speed, a failing-away sort of feeling when she found hercelf being builed through space, and then for an etermity-failing, failing, failing-would also the sever find earth again? Then there was a sickening splash, a violent twinge of pain in the right leg and the young missionary found herself in the rapid river frantically clinging to an upjutting rock.

Stout was seen swimming to her rescue. But a mist began to gather before the girl's eyes. The pain in her leg increased and ourned like a red-hot iron. Resolutely che held onto the slippery rock, but it was bard work against the swift-flowing waters.

Duncan Voothuis picked out the form of Evengel Sellar clinging to the rock in the river; then tying his steed to a tree at the fringe of the jungle belt of the hillide, which stretched down to the water's edge, he set off at a run to the rescue.

He found the jungle dense. Thick creepers swung from tree to tree, turning the tropical day into a varue twillight.

There was a thickness of undergrowth, too, under foot, covering a score of holes and pitfalls.

Voorhuis stumbled rather than walked.
It seemed he had been going an age. The picture of the white girl in distress haunted him and he pressed onward as fast as possible. Still he seemed no nearer the river in this mysteries and interminable stretch of forest and fems.

The fact that he was wet through from his rescue hardly seemed to dawn on the young assistant controlleur as he hurried arrangements for Evangel's comfort. As he afterwards admitted to himself, he was strangely envious about this unknown girl.

To be continued

T IS a charge brought against us by some that we make a hobby of the subject of Holiness, that, like Paganini with his violin, we are always fiddling on one string. If they brought the charge against him, I suppose he could have replied, or somebody could have replied for him, that he was able to bring more music out of his one string than his rivals could bring out of their four; and if it is true that we are frequently engaged on this one topic. I think that there are many people who can bear winess that there has been brought out of it some music wonderfully beautiful, wonderfully enthralling, music which has been made a blessing to them, and to many—ho are round about them. But I take exception to the correctness of the charge. I say, varying the figure, we are running our Hallelnjah Express to Heaven, not on one line, but on three.

The first that of these rais we can lardon, and I am since we very often talk of that.

The second we term Purity—a clean heart, with a clean life; and
The third we term Sacrifice, or the giving up of all that we possess to the service of our Lord and Sovereign.

That is, first, saved from hell, and having the consciousness of it, with our feet consciously on the rock of Salvation.

Secondly, saved from inward, as well as outward sin; and

Thirdly, having been saved from the penalty and power and inbeing of sin, being enabled by grace to devote all we possess to the great work of being saviours to those who are round about

Jesus Christ has come to deliver us from sin. Jesus Christ has come to deliver us from sin. No one would want to localise this purpose, or contract it, by saying He intended to save a man from getting drunk, from telling lies, or swearing or thieving—that is, to take the outworks, while the very citadel, the heart, is left infected with pride, selfishness, envy, hatred, revenge, bad temper, and everything that is bad. rotten, devilish, and unlike God. Surely, to deliver man, God must not only break the neck of the open and outward foes who have domineered over him, but He must destroy those inward enemies, and save us from the hands of all that is devilish in our own secret passions, tempers and dispositions.

all that is devilish in our own secret passions, tempers and dispositions.

You never need sin any more. Here's the Conqueror. He is coming this way. He can toss His enemies. He can toss them out of your heart. But some people's notions of this torsing very much resembles the predicament in which many unfortunate farmers are found in wet seasons with their crops. They cannot get the blessed smishine long enough to gather them in, and so they are always tossing them about, and when they got them pretty well dried there comes another shower, and then they have to toss them again. toss them again.

Now this is just the notion many have, or seem to have, of the Saviour's work. They think He just comes and tosses their sins from one corner into another, turns them over every now and then, and lets them have an airing at Holiness Councils. Special Campaigns, and the like, but leaves them much the same as He found

It tell you this is all a mistake. This Unicorn, it you will let Him, will do something more effectual than that. He has strength enough to toss the pride, the temper, and selfishness not only from one corner into another, but out of your hearts entirely. He will conquer, and He will not only conquer, but He will annex your hearts entirely. He will conquer, and He will not only conquer but He will annex your heart, and make it His own territory over which He will rule absolutely.

Does anyone say, "How is it this has not been done in me?" I will give you one versa which will explain this to you. Referring to Mary, the blessed Mother of our Lord, the Holy Ghost say. "And blessed is she that believed, for there shall be a performance of those thingwhich were told her of the Lord."

Oh, have there not been some wonderful

You have heard that you can be turned into a saviour of men, that your days can be like the days of haven one earth, and I know not what other wonderful things; on may have heard. But there is something more than hearing necessary to complete your blessedness, it is the performance you want.

It is the doing that is licking. You have heard, and heard, and heard again until you have heard, and been a new look, then a new pracher—now a new friend, and then you have been off to new meetings, conferences, or councils or the like, but have got no further forward. Oh may God let there be a performance.

But how can the performance be? Here it is, "Blessed is she that believeth, for there shall be a performance of those things which were told her"—to the woman that believed, for there is nothing promised to anyone else and, thank God, this is for the men as well as for the women, and to everyone of us, whether man or woman, if we will but believe, there shall be a performance of the things which have been told us from the Lord.

The next day a representative of the Malayans in the Colony asked the Major to explain the new system to them again, and declared that the Chinese headman—who had to be used as a translator—had spread a very different tale! So it seemed, when the Major found a hundred and fifty of the Chinese, laden with baskets, plates, dishes, etc., surging to-

ward the main gate of the Colony, off to put their case before some one who would help them. The lame and the blind were there. "Where are you going?" asked the

"Where are you going?" asked the Major.
"We don't know!" they cried. Were ever human beings in more pritiful plight than these leprous exiles fighting against the hand of Love?
When they reached the Government Road and were met by many police, the poor settlers turned back home. Next day the rising bell rang out as usual over the Colony, but no one responded. The people had decided upon a general strike, and had resolved to stay in bed indefinitely. This not only meant a grave breach

of the discipline necessary in such a place, but a reseation of the medical treatment executial to the comfort of the diseased Colomists.

"No one will receive food till he or the has attended the dispensary," was the order, and one by one the reciple crept to the place of bandages and antisepter. Theore to the kitchen. There was a fascinating brightness at a spirit of sanguine hopefulness about the service which followed. Of course these are Army qualities, and we feel some that the cheery nightness of the new auditorium will ted to foster them. After commending those who had
so nobly "put their shoulders to the
wheel," the Commissioner proceedto briefly elucidate the great motive
which lay behind the creetion of the
new building. "This structure is not
to be utilized merely for purposes of
song and musical festivals," he admonished, "nor even for soul-saving
work. It is for the nurpose of worship. Give some deference and respect to the building. The soul-saving will be all right it the worship is
all tight."

And then the Commissioner told as

ing will be all right it the worship is aft idgn."

And then the Commissioner told as the "Obl Gang." They designated themselves thus because, sanchow or other, it symbolized the spirit which bound then together in the days gone by at the old No. 1 Carps. Though separated by thousands of miles the same spirit still creates a unifying sympathy. The "Old Gang" wanted their memory to live in the new Hail! So they clubbed together and procured a number of verdant ferms, which to-day beautify the building and are a lasting memorial to the chimants to the capacilation are many names familiar to all Canadian Salvationists—names such as Ensign names (annuar to a)) Cananian sain-vationists—names such as Ensign and Mrs. Evenden, of China, Mrs. Captain Long (nee Captain Hawkes, of India, and Ensign and Mrs. Wel-hourn, of China. And there were others, nearer home perhaps, equally well known.

The first Sunday in the new Cita-del was an auspicious necession for

Hamilton Salvationists. In the mitial meeting the truths ament Holiness were fully delineated by our Leaders. Mrs. Colone! Hargarave prayed carnestly for an outpouring of God's blessing, and the four souls who sought Full Salvation, at the conclusion of Mrs. Maxwell's address, formed the answer to her supplication. Adjutant Jones and Captain Maxwell, former Corps Officers, were present. The Adjutant stated that the thome League had furnished the first standed behaved the building, and, in fact, every department of the Corps did its part in a most admirable manner.

Despite the numerous engagements which occupied the Commissioner's attention during the week-end he found time, with the Divisional Commander and Captain Maxwell. to visit the General Huspital. There he spoke and prayed with Roland Oates, a Young People's Band-lad, and also with Bandmaster Collins, of No. III Corps.

In the Salvation meeting Captain Maxwell expressed her pleasure at once again associating with the Inmilton countries, and Lt. Colonel Moore, who was in a reminiscent mood, told us that he first became wandmed with the Corps years again was a pointed as Officer-incharge. Messages from Colonel and Mrs. Chandler, former Divisional Officers, and Major and Mrs. Kendalt. Corps Officers, were read. The Commissioner, in his characteristic chatty manner, and with the apapplication of many, at first sight, matter-of-fact incidents gleaned by observation, presented to the sinner a Saviour who was, and is, the is more than the Master of circumstances, "The is the possessor of a hearter. A most effective appeal was the song-invitation, sung by the Compissioner and Mrs. Marwell. Hearts were stirred to their depths, and deep spirit of conviction settled upon the meeting. Before long the first soul hal come to the Jesus of Whom they had sung. The pentient-formet appears to the first soul bard come to the Jesus of Whom they had sung. The pentient-formet appears as a sacred place—became the door through which seven sinsick souls found the Master of Extremities. There, the Sergeant-Major exulted over the fact that a first-large trient, from the same hometown, had come to the Cross. There, Colonel Hargeree proyed with a young man who was a backshiler. The Colonel knew him years ago, when he was the drummer in an Army Corps. No wonder the faces of the comprades shone. Was not God already placing His benediction upon their mey Hall. Well could they cry, in the words of Major Kendall's message. "Ten thousand Hallebajals."

Solo cornet, solo horn, and flugel
horn parts are now considered so
essentially a part of Brass Band instrumentation that present-day Bands,
men can hardly realize what these
changes mean at the time of their in-

troduction.

These alterations were not made to bring instrumentation and nomenclarure in line with outside publications; no, for The Army's lead in some instances has heen adopted by other arrangers and publishers.
Conductors' copies were introduced in September, 1921, with B.J. No 353.

Signs of Expression and Force

Marks

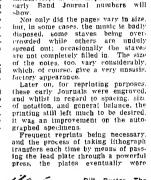

Marks

In the early Journals no Inditations whatever regarding speed, expression, or style were given. Force marks also were only very sparingly employed; in some cases none at all were shown. In most cases, however, we fear but very little regard was paid to the few indications given on the printed copies; as a matter of fact, if a Bond varied its force at all, in agreement with the slame given, this was taken as a sure sign of technical excellence and ensured such Bands being placed in the front rank.

As the multic developed, additional signs and terms were needed to indicate style, and to serve as a guide to correct interpretation, and that pollcy has been adopted down to the present time.

Printing

The process of printing the Band Journal in recent years has not varied, but in the comparatively early days quite a number of changes were

effected.
Some of the early Journals were pruted from antograph copies, originally written on specially prepared ithographic transfer paper, and, after being transferred to stone, were printed by the lithographic process.
While this was a fairly chapmethod, and permitted the Journals produced being sold at a cheap rate, the results were by no means entirely salisfactory, as an inspection of the early Band Journal numbers will show.

Bill Buster—The man who makes his presence felt. Prom "The Bandsman and Songster")

pressed out of shape: consequently, when the music was printed, many of the staves were far from straight, and some almost crescent shaped.

Since those days ways and means have vastly improved, and at the present time the plates are not subjected to these repeated pressures. A copy is now taken and transferred to zinc, from which inflinited reprints can be made without the necessity of retransferring as was the case when stones were used for printing.

Beginning with BJ, No 191, a new.

stones were used for printing.

Beginning with B.J. No 101, a new much more expensive, but superior and more uniform method of printing was initiated. In place of engraving the music on soft metal plates, it was now set, up in type, and stereo plates, consisting of an alloy of lead, tin, and antimony, were made. This method is the reverse to that of engraving, for while with the former the notes are made by indentations, with the latter the notes are raised, by a building-up, or type-setting, process. The metal being extremely hard, the printing of any number of parts is possible and reprints are but a simple matter. This operation was employed up to B.J. 330.

In the meantline great progress in

B.J. 330.

In the meantime great progress in music engraving and lithographic printing had been made, and as improvements in general appearance, and economies in space and costs were now possible, this measure was again adopted and continues up to the present time. Little if any fault is now found with the printing; in fact it is generally acknowledged to be entrely satisfactory in every respect, while the waterproof manilla paper upon which it is printed cannot be surpassed for quality and durability.

LIEUT.-COLONEL DAVID MOORE

Who Has Earned Honorable Retirement, Consecrated His Life to God and The Army

42 YEARS OF WHOLE-SOULED SERVICE AS A SOUL-WINNER

S HE GOES into honorable retirement, Lt.-Colonel David Moore can look back after sixty-five years of life, forty-two of which have been devoted to strenous and whole-souled service to God as a Salvation Army Officer.

It was in the village of North Gower, not far from Ottawa, that he was born. Among his enrifest memories are the journeys to and from the village church holding fast to a strong parental hand.

After moving from place to place in his youth, young manhood found him living in Clinton. Ontario, where he was employed as assistant in a store, whence he was sent to Ray-

his spiritual sky, when in the Bayfield hotel where he boarded he heard
a young woman sing "Must I go, and
empty-handed?" That song was
foot's message to his soul, and the
question of his fife-work was settled.
Another incident which occurred
about this time also influenced him
deeply, A young man of his acquainnsnee had been pleaded with to suriender to God and had refused, and
then very suddenly death had overtaken him. This made young Moore
feel more deeply than ever how
great was the need of soul-winners.
He hesitated no longer, hut made
application for Officership. There
was no such thing as a Training

field as manager of a branch of the same husiness.

About this time came the occurrence which, little as he realized it them, was to change the whole course of his life—he met The Army, and from the first contact found a warm place in his heart for these devoted Soldiers of the Cross.

Captured by The Army

His capture by The Army was on this wise. He was only nominally religious, had certain church associations, but made no profession of religious exercise which never failed to attract him. He was passionately fond of singing. One evening the streets of Clinton were made to ring by a small party of Army Soldiers singing "Follow, follow, I will follow Jesus." in an Open-air meeting. Young Mr. Moore stopped and listened, and The Army had him. He went to meelings for a short

and listened, and The Army had him.

He went to meetings for a short time and then decided to cast in his lot with The Army for life. Once the decision was made, he become an out-and-out Soldier and gave his very best in service to the little Corps which had become his spiritual home. Bayfield was ten miles away, but this young enthusiast did not find it hard to close his store at ten o'clock on Saturday night and then traing to Clinton so as to be there for the Sunday meetings.

This continued for two years, when

day meetings.

This continued for two years, when God again used the ministry of song as the deciding factor in another crisis of his life. The question of devoting all his time and strength to the winning of souls had become a live issue in his spiritual experience, largely through an address he heard on "they that turn many to rightcoursess (shall shine) as the stars foreer." He was delatting the matter in his mind, analous to do the whole will of God, but fearful lest he should made a mistake which would durken

now in nonorane and well-carried retirement.

Teeswater was followed by the
command of several Corps, including
Listowell. Bothwell and Ridgetown.
Then Territorial Headquarters created
the new relt of Ensign, and Captain
Moore was one of the first to receive
it, being appointed at the same time
to Woodstock, Ontario, as Divisional
Young People's Secretary, followed
by a similar position at Ottawa.
After this he took the very unusual
step of surrendering his Ensign's
rank in order to get back to Corps
work, and was sent to Lindsay,
When the District system was innugurated he was made a Divisional
Officer, and for some years renderel valuable service in that capacity.

command at Hamilton.

He had only been there a few

months when he was called to Terri-torial Headquarters and informed that the General had chosen him to become Sub-Territorial Commander for Newfoundland.

For Newfoundland.

He will earry into retirement memories of his last appointment which will be an unfailing source of inspiration to him; memories of Spirit-stricken men and women lining the penitent-form again and again, while converts and veterans besieged the Throne of Grace on their hehalf; memories of journeys by motor boat and dog sleigh to Outposts, where faithful comrades must be encouraged and careless sinners warned; memories of miraculous conversions and answers to prayer, of Gethesmane consecrations and Pentecostal outpourings. pourings.

pourings.

We quote the Colonel's own words in closing his remarks about Newfoundland, "I would like to say through "The War Cry" how deeply I appreciated the cooperation and help of all associated with me in the work there. Especially would I thank Major and Mrs. Walton, in every possible way their loyalty and support were beyond praise, and I shall never cease to remember and be grateful to them."

sana never cease to remember and of grateful to them."

This sketch would be singularly incomplete without reference to Mrs. Morre, who for the past twenty-eight years has been the Colonel's unfailing support in every effort he has put forth for the Kingdom. Savei in Barrie under the ministry of Captain Jack Addie, she hecame in Soldier and an Officer in spite of the opposition of her friends and lovel ones. After giving several years of very effective service single handed, she agreed to a proposal to become Mrs. Moore, and since then has right worthily upheld the noble tradition of Army wives and mouners.

S TRANGE, how retiring some people are.

"War Cry" heralds for instance. I should hear little or nothing of their doings were it not for the Corps Officer who drops me a time about them. or were it not for some chance happening that draws the curtain back and affords me a brief view of their activities.

They seem to be the sort of folk who do good.

By Stealth.

I wonder, do some of them creep out of their houses at night under cover of the darkness to sell their "Crys," so that no one shall see their good works and betray them.

Anyway, I seem to hear much too little about their doughty doings. What about a few more heralds' photos this way, and some records of their achievements for the

Encouragement and Stimulation

of others? A case in point It was only by the melest chance that I learned of a comrade 78 years of age—not 7 or 2, or 7 and 8; but 78, mark—who selfs his batch of "War Crye" regularly every week.

And not half-n-dozen, mark you; how yet one dozen. Neither two dozen, or three dozen.

Higher Still.

Higher Still.

This lively septuagenarian—have I got that right?—sells 60 of our Salvation messengers weekly.

Name? Certainly. Let me shour it from the housetops; yea, let me take an toroughane and fly to the uttermost parts of the Territory and thunder it forth:

Sergeant-Major Hussey, of Preston, is the noble comrade.

Are there others like this modest comrade, of whom we never hear? Doubless there are.

I want to hear from some or you.

It will be a mighty inspiration to other comrades who are heralds to hear of you, and also be the means of urging others to become

BURWASH

Major Thompson, who visited flurwash on Sinday, September 2nd, gives the following impressions of his visit:

"On visiting this famous camp one gets a different idea of the place than by reading about it. The activates are very interesting. The fourteen miles of road with the splendid farm lands on either side, which go to make up its 30,000 acres, are really an eye opener to the newcomer. To accommodate and look after the three handred to four hundred inmanes is task of no wean order. Huge buildings are used as dormitories, with dinlug rooms and kitchen all very conveniently connected. The new portion, built in front of the main building and serving as offices, waiting rooms, ct.c., makes a very delightful addition to the place. Then across the road is the administration hulding, laundry, and supply store. A little further up the street is the power plant which gives heat to the surrounding buildings. On the left is the Superintendent's cottage and close by Sergeants Turner and Lambert, and makes a pleasing and beautiful virlage.
